SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Mail Stop AMENDMENT
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicant hereby encloses a translation of a German search report citing references
previously submitted.

No inferences should be drawn that the attached document represents a comprehensive
investigation, or that any material disclosed is equivalent to the subject invention. In addition,
the document is not believed to anticipate the invention disclosed and claimed in this application.

There has been no attempt to list each and every feature disclosed by the document. The
Examiner is requested to review the document and determine the extent of the materiality of the
document disclosures with respect to the present invention.

The discussion of any documents identified herein is not to be construed as an admission
that the document disclosure is necessarily within the invention field of endeavor, that the
document disclosure is necessarily prior in time to a particular date which may be relevant to the
instant patent application, and/or that the document disclosure is otherwise necessarily prior art
as defined by the patent law with respect to the instant invention and application.

Also, there is reserved the right to later set forth how the instant invention distinguishes
over the disclosure of any document or other art, including the disclosures of the document

recited herein, that may be cited by the Examiner in rejecting a claim in the instant patent application. The recitation herein of the art and document is not to be construed as an assertion that more pertinent art could not possibly be in existence.

Respectfully submitted,

WELSH & KATZ, LTD.
